

Operative G T Purdy

Nov. 1st, 1926

Re: Hall home. (milkman observing open rear door.)

HARRY KOLB, 27 Delaran St., New Brunswick, N.J.

Operative interviewed Mr. Kolb at his home. He is a milk man and stated that when he went to deliver the milk at the Hall house the morning of Sept. 16th, 1922 between four and five in the morning he observed the rear door open and had to close it to pass by.

Operative asked him if he knew where the door led to and he stated that he never knew. That he just left the milk in the mornings and never collected the money as it was always sent to the office by check. He states he never observed this door open at that hour of the morning before. He also stated that he does not know how the investigators found out about his seeing this open door.

Respectfully submitted:
